40% Final Exam  
FG: Thursday December 17, 3:30-5:45pm (department's exam)  
GH: Monday December 21, 6-8:15pm (instructor's exam)

OVERVIEW

Each day we will learn new material and homework exercises will be assigned. It is essential that you work through these exercises before the next class and ask questions whenever something is unclear. Homework will be handled through [webassign.net](http://webassign.net), which can be accessed using the following class keys.

**FG: ccny 0043 7378, GH: ccny 2202 4609.**

Quizzes and exams will be based on class examples and assigned exercises. Quizzes will be announced one week in advance and the midterm will be announced two weeks in advance. Calculators are not allowed on quizzes or exams, although you may find it helpful to use a graphing device while studying. In general, no make-up quizzes or exams will be given. If you must miss a quiz/exam, please email me in advance and include a justification for your absence.

There will be several opportunities for extra credit throughout the semester. These will be announced in class.
