Websites: johnadamski.com/173.html
http://math.sci.ccny.cuny.edu/courses/name=Math_17300
Blackboard: Will be used for posting grades
Be Honest: <https://www.ccny.cuny.edu/about/integrity>

GRADES

40% Quizzes (about 6, lowest grade dropped)
20% Midterm
40% Final Exam

OVERVIEW

Each day we will learn new material and homework exercises will be assigned. It is essential that you work through these exercises before the next class. Homework will not be collected, but I will assume you have worked through the assigned problems and understand their solutions. The first 5-10 minutes of class is available for going over homework exercises. Class notes and homework solutions will be posted to johnadamski.com/173.html.

Approximately every other Monday we will begin with a short quiz (20-25 min) which will cover the previous two weeks' material and will consist mostly of assigned homework exercises. There will be one cumulative midterm exam (tentatively scheduled for Wednesday, 4/5).

An optional review session for the final exam will likely be scheduled between our last class and our final exam.
